Integrated Digital Health Record & Hospital Information Management System

Tender Reference: TENDER-2024-MED-002 | **Authority:** State Health Services Directorate

LEGAL NOTICE: *This tender document is a simulated artifact created strictly for testing and validating Natural Language Processing compliance evaluation algorithms. It does not represent an actual public solicitation.*

Category	Healthcare IT Systems
Procurement Method	Open Competitive Bidding (Two-Envelope Electronic System)
Simulation Status	SIMULATED DATASET – FOR DEMO & TESTING PURPOSES ONLY

1.0 Healthcare Modernization Mandate

Procurement of an enterprise-grade Hospital Information Management System (HIMS) connecting 45 tertiary medical centers with centralized EHR registries.

2.0 Financial Capability Thresholds

2.1 Turnover Threshold: The bidder must demonstrate an average annual audited turnover of at least USD 25.0 Million.

2.2 Liquid Net Worth: Net worth certificate verifying minimum USD 5.0 Million positive equity.

3.0 Technical Specifications

3.1 Clinical System Availability: 99.90% monthly uptime SLA across patient portals and emergency clinical care modules.

3.2 High-Volume Messaging: Data ingestion pipeline supporting 10 Gbps peak network throughput.

3.3 Cryptographic Standards: End-to-end AES-256 and TLS 1.3 encryption for all patient health records.

4.0 Healthcare Domain Experience & Team

4.1 Operating Track Record: Minimum 7 years continuous commercial experience in clinical healthcare informatics.

4.2 Proven Deployments: Client completion certificates for at least 2 reference hospital deployments valued at USD 5.0 Million each.

4.3 Lead Healthcare PM: PMP certified PM with 10+ years managing hospital informatics.

5.0 Statutory Accreditations & Warranty

5.1 Certifications: Active ISO 9001:2015 and ISO/IEC 27001 accreditations.

5.2 Maintenance & Warranty: 60 months (5 years) comprehensive warranty with 24x7 clinical support SLA.
